How Do You Protect Yourself?

We use these items almost daily to prevent harm, injury or damage:

- **Safety Glasses**
- **Rubber Gloves**
- **Seat Belts**
- **Antivirus Computer Software**
- **Helmets**
- **Car Bumpers & Air Bags**
- **Security Systems & Locks**

Nearly ALL Disease

is caused by...

- **Germs**
- **Bacteria**
- **Viruses**
- **Fungus**
- **Spores**
- **Mold**
- **Yeast**

They enter the body through...

- **Hands**
- **Eyes**
- **Mouth**
- **Nose**
- **Pores**
- **Wounds or Sores**

Most often they are transported from person to person.

Prevention Will Help YOU!

If you could prevent harmful germs and bacteria from entering your body, would you be healthier?

YES

Avoid sickness & stay healthy

Improve your lifestyle

Be more productive at work & home

Use fewer sick days at school

How do we stop the spread of harmful germs, bacteria and viruses?

Kill them... before they can be transferred from: countertops, telephones, doorknobs, banister, pens, car seats, pencil sharpeners, shopping carts, keyboards, steering wheel, handshakes, gym weights, McDonald's play yard, bathrooms, toys and locker rooms **TO YOU!**

How can you do this?

It can be as easy as this...

The PureWorks Story

- **Workers in the Health Industry**
- **Need CLEAN HANDS**
- **Options:**
 - **Soap**
 - **Hand Sanitizer**
 - **Rubber Gloves**
- **Result**
 - **Dry and Cracked Skin**

Antibacterial Gels, Lotions, and Soaps rely on:

Alcohol

- Kills only on contact
- Flammable
- **Protection only lasts 3-5 seconds**
- Dry out hands
- Causes skin to crack allowing bacteria to enter the body

Pesticides

- Kill germs, insects, birds, pets, and Humans!

Antibiotics

- Can lead to “Super Resistant Germs”

Are these products creating a false sense of protection?

Mark Franks - Currently owns and manages a large Medical Supply business. Many hours were spent asking healthcare professionals – “What is the one thing that would help you in your practice.

The answer: their hands are dry, sore and cracked from all of the hand washing and the alcohol hand sanitizers. That is when Mark found Dr. Ed Walker and they formed a product that would benefit all professionals who need to sanitize their hands.

World Leading expert on QUATS! Dr Ed Walker – After many years of extensive scientific research has developed a revolutionary line of protection that gives you clean, beautiful skin without causing dryness or cracking.

“Quaternary Ammonium Compounds”

NO ONE has been able to do until NOW!
